## **METALHEADZ**

### **BIOGRAPHY**

Set in a dystopian future in which entertainment (and every aspect of day-to-day life) is run by international corporations that tell us what to think, drink, listen to, and watch; 'Metal Headz' follows the chaotic adventures of heavy metal band - Children Of The Damned.

Inspired (and outraged) by the creation of the world's one-millionth boyband, "Boyband", to sell the latest beverage sensation, 'Popsi', the down-tuned, disenfranchised quartet take up the call to battle big business music tycoons and thwart their efforts to set new sales records.

Rich with original content, tongue-well-in-cheek music, and sharp comic wit. Commenting on contemporary social, political, and artistic issues, and delivered in a stylised and stylish format, 'Metal Headz' is designed to appeal to today's youth and adult audiences alike.
